SEPTIC SYSTEMS AND CESSPOOLS

If you are planning to remodel, upgrade or construct an addition or accessory structure to your house, you will need to have your septic system evaluated by a professional. If you have a cesspool, it will need to be replaced with a septic system. There are some exceptions if you are remodeling within the existing building footprint and not adding a bedroom. However, it is important for you to contact the LA County Department of Public Health at (310) 338-3226 to discuss prior to commencement of work. Your cooperation is appreciated.
